CS 709B Advanced Software Project Management and Development

Project Part IV: Implementation and Demo

April 21, 2009

Due:	Friday, May 8, 5:00 pm
Points:	100
Weight in course grade:	16%

This final part of the project involves submitting the complete, commented source code of your prototype software (by email) and demonstrating your project to the instructor on May 4-7, 2009.

Deliverables:

- A₁** *Overview file.* This file should provide a summary of your source code in terms of program units and modules (e.g., classes and packages) included (recommended maximum size: two pages).
- A₂** *Source code.* The commented, original source code of your program should also be submitted by email before the deadline.
- A₃** *Test cases.* These will be illustrated by demonstrating the functionality of your software to the instructor. At the time your demo is scheduled you should be prepared with the program “ready to run” and have a sequence of tests prepared. The instructor will try additional uses (tests) of the program and will ask you questions regarding the project.
