This essay is related to your 20-minute presentation of your selected additional HCI book reading. The essay should have between 500 and 700 words.

You are free to decide on the structure of the essay (summary + critique and the book) but in any case it should include:

- Title of the book, author(s), publisher, year of publication, number of pages, number of pages covered [required: at least 200]
- Main goal(s) of the book
- Main ideas presented by the author(s) of the book
- The book's intended audience
- Notable concepts, items, and/or bits of information
- Several positive aspects of the book (recommended: at least 3)
- Several things that could have been done better in the book (recommended, at least 3)
- Your evaluation of the book and recommendation(s) for its potential readers.
