The Twenty Ninth International Conference on

Software Engineering and Data Engineering

October 19-21, 2020

Flamingo, Las Vegas, NV, USA

The SEDE Conference Organizing Committee invites proposals for special sessions and tutorials

Special Session Requirements

Special sessions supplement to the regular program for SEDE. Each special session should highlight important research topics in a field of interest related to software engineering and/or data engineering. Each special session should have 4-5 papers. The following information should be included in the proposal:

- Title of the proposed special session.
- Names/affiliation of the organizer (including brief bio and contact info).
- List of invited papers (including a tentative title and author list).

Tutorial Requirements

The following information should be included in the proposal:

- Title of the proposed tutorial.
- A short description of the material to covered.
- Contact information and a brief bio of the presenter.
- Expected audiences.

Proposal Submission Guidelines

Proposals will be evaluated based on the timeliness of the topic and relevance to SEDE, as well as the qualifications of the organizers, quality of papers in the proposed special session or content of the tutorial. Please send your proposal to the Conference Chair before July 15. Decision will be made within two weeks of the proposal submission
