| Weight in course grade: | 13% |

Deliverables of Part 3 of the Project

This final part of the project involves presenting your project in class (on December 2, 4 or 9); demonstrating it to the instructor on December 12 or 13; and submitting the commented source code of your prototype software (by email) to the instructor by Friday December 13 at 11:59 pm.

- 1 Class presentation.** In about 12 minutes (including Q&A) present your project to the class. You can use material from your project concept, specification, design and implementation parts. Your scheduled class presentation is on either December 2, 4, or 9, 2019.
- 2 Demo.** Several use cases/features of your project should be shown step-by-step to the instructor to demonstrate the interface and the functionality of your software. Meet as scheduled with the instructor in his office, on either December 12 or 13, 2019.
- 3 Source code.** The commented source code of your program should be submitted by email before December 13, 2019 at 11:59 pm to the instructor (single ZIP file named [P3_YourProjectNumber.zip](#)).
