Department of Computer Science and Engineering

College of Engineering, University of Nevada, Reno

CS 420/620 Human-Computer Interaction

Project Part 3: Prototype Implementation

Due:	**Demos to the instructor** on December 13 or 14
	Source code by email by December 15 at 5:00 pm
Points:	100
Weight in course grade:	20% in CS 420, 15% in CS 620

A   Deliverables of Part 3 of the Project

This final part of the project involves demonstrating your project to the instructor on December 13 or 14, and submitting the commented source code of your prototype software (by email) to the instructor by December 15 at 5:00 pm.

A₂ *Demo to the instructor*. Several use cases should be illustrated by demonstrating the interface and the functionality of your software to the instructor. At the time your demo is scheduled you should be prepared with the program "ready to run" and have a sequence of use cases prepared. It is recommended (but not mandatory) that you have a printout prepared with specific steps for each use case that you plan to show.

A₃ *Source code*. The commented source code of your program should be submitted by email before December 15 at 5:00 pm to the instructor (single ZIP file named P3_T*.zip, where T* is your team number).
