Department of Computer Science and Engineering

College of Engineering, University of Nevada, Reno

CS 420/620 Human-Computer Interaction

Assignment #1

September 4, 2019

Due: Friday, September 13, 2019, 11:59 pm (single PDF file named A1_YourLastName)
Points: 70
Weight in course grade: 6% (CS 420) and 5% (CS 620)

1. HCI Video Clips [40 points]

Find two HCI video clips online and write short descriptions for them (100 to 200 words each). For each video clip concisely explain what it presents, its significance for Human-Computer Interaction, and why you think the video clip is worth watching.

Each video clip should have a length of between 2:00 and 8:00 minutes (note that this can be an excerpt of a longer video, in which case indicate the selected start and end times). *Provide the complete and correct links to the video clips (make sure they are clickable).* Do not use videos that are already included on the course website.

2. HCI Website [30 points]

Find a website with predominant and substantial HCI content and briefly describe it (150 to 300 words). Concisely explain what it presents, its significance for Human-Computer Interaction, and why you think this website is worth using and/or exploring.

Provide the link to the website (make sure it is clickable). Do not use websites that are already indicated on the course website.

Send the assignment as a single PDF file to the instructor by email at dascalus@cse.unr.edu. Name the file A1_YourLastName, for example A1_Smith.
